# Unit Award Scheme

UAS allows all students to engage with learning and have their achievements formally recognised.

Students are rewarded with a certificate each time they successfully complete a unit of learning. They can build up a portfolio of certificates to evidence their skills, knowledge and experience.

The scheme boosts confidence, increases engagement and improves motivation, helping students to make progress on their lifelong learning journey.

## Why choose UAS

- **Comprehensive** – UAS covers all topics from school curriculum subjects to life skills, outdoor activities, arts and crafts, and work-related learning
- **Inclusive** – students of **all abilities** can take part in the scheme
- **Adaptable** – teachers can write their own units for tailored, bespoke learning
- **Flexible** – students can achieve an unlimited number of units each academic year, receiving certificates on-demand at any time throughout the year
- **Versatile** – teachers will use UAS in many different ways: SEND/SEMH programmes; enrichment and extracurricular activities; community-based learning projects; professional development, learning and building new skills, preparing for GCSE's and level 1- 3 qualifications

Each centre has a UAS Coordinator who is trained as part of the UAS registration process. The coordinator submits the claims for certificates, along with the evidence when required. Claims for certificates can be made year round and students can be added to the scheme at any time.

## Case study: Brunel and Burton Academies

Mandy Seymour, teacher and SENCO at Brunel and Burton Academies in Devon, explains how Unit Award Scheme (UAS) continues to be a success with both students and teachers.

### Re-engaging students

I'm the UAS coordinator in a small school for pupils permanently excluded from mainstream, 100% with an Education Health Care Plan and all within the main area of need in social, emotional and mental health. As a body, our students struggle with attendance and being in learning spaces. They've all travelled a tough road to get to us and feel disaffected with education. Their self-esteem is low which has a big effect on how they perceive learning and themselves as learners.

UAS has been fantastic; it enables us to teach groups or individuals on a wide variety of topics and to evidence to the students how well they can learn, providing them with a real sense of achievement. One pupil, on completing some Entry, 1, 2 and 3 maths units (UAS can be used as a stepping stone towards the achievement of AQA's Entry Level Certificates) asked "does this mean I could do a GCSE?" When the teacher replied "what do you think?", the answer was "I know I can now, I've got no excuse – you'll just keep reminding me of all these certificates!"

## **Department Of Education Awards**

The DofE Award runs at three levels, bronze, silver, and gold. It is a recognised award for 14–24-year-olds, that is well respected by employers. The award is designed to support young people in developing life and work skills. It's all about setting personal challenges and pushing personal boundaries. The best bit about DofE is that it makes learning fun! There are many fun activities to participate in to get the award such as: Sports, dance, arts, outdoor activities, orienteering, hiking, residential etc. The award is all-inclusive and tailored to meet the needs of its participants.
